

REBOUND...

FASTER.

clarix[®]
brought to you by **amnioX**
A TissueTech Company

No matter what their game.

With the CLARIX[®] line of cryopreserved umbilical cord and amniotic membrane allografts

Supports regenerative healing and functional recovery across a wide array of surgical wound and soft tissue applications as an adjunct¹⁻⁹

- Complex bone and joint reconstruction
- Soft tissue repair and reconstruction
- Nerve repair and decompression
- Joint arthroplasty and arthrodesis
- Meniscal and cartilage repair
- Fractures and non-unions
- Traumatic wounds and reconstruction
- Wound healing and dehiscence

Bring the natural power of human birth tissue to your surgical patients and discover a paradigm shift in healing and functional recovery.¹

CLARIX FAMILY OF ALLOGRAFTS HELP²⁻⁹

- Expedite healing
- Regain range of motion
- Aid in the reduction of adhesion formation

THE SCIENCE BEHIND FASTER RECOVERY

For over 30 years, our pioneering scientists have focused on understanding the regenerative features of human birth tissue—ultimately identifying **HC-HA/PTX3** as a key orchestrator in human birth tissue regenerative healing.¹

Our CRYOTEK[®] cryopreservation process has been shown to preserve the structural and functional integrity of the **HC-HA/PTX3** complex significantly better than heat dehydration—delivering the benefits of the natural tissue to the wound.^{1,11}

AVAILABLE IN VARIOUS SIZES AND CONFIGURATIONS FOR SPECIFIC APPLICATIONS AND TREATMENTS

CLARIX CORD 1K

The market-first cryopreserved umbilical cord allograft as an adjunct for surgical applications

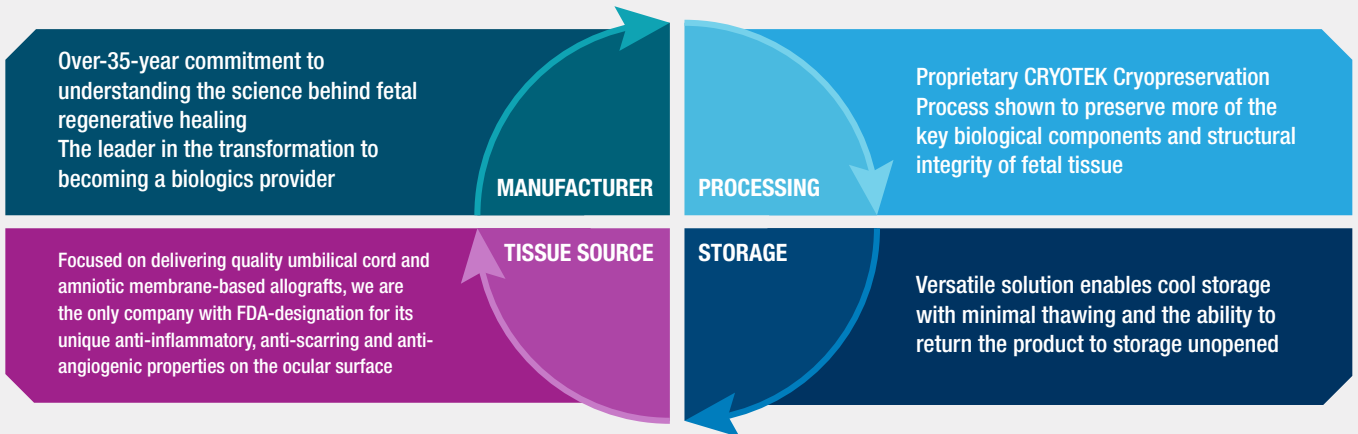

- **Expedites and improves surgical wound healing**, reducing overall time for skin healing by 30% in total ankle arthroplasty patients²
- **Up to 10x thicker than amniotic membrane (AM)**,¹⁰ which may increase longevity in the surgical site

- **Easier handling and less prep time** compared to dehydrated and deep cryopreserved AM allografts

CLARIX 100

- Cryopreserved amniotic membrane (only) matrix for surgical applications, a thinner alternative to CLARIX CORD 1K

WHY AMNIOX?

	 CLARIX CORD 1K Cryopreserved Umbilical Cord/Amniotic Membrane Allograft					 CLARIX 100 Cryopreserved Amniotic Membrane Allograft
